

# Carbon Reduction Plan for ModuleCo Healthcare

Supplier name: ModuleCo Healthcare Ltd

Publication date: ...1<sup>st</sup> October 2025

## Commitment to achieving Net Zero

ModuleCo Healthcare is committed to achieving Net Zero emissions by 2050.

## Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

MCH are non-manufacturing and do not generate waste or distribute materials upstream or downstream. Delivery of product to site is carried out by supplier and reported on in their CRP. Once delivered to site the product is static and not subject to further transportation or distribution. We operate solely in the UK, and all business travel is by road and included as part of Scope 1.

## Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to 24.13 tCO<sub>2</sub>e by 2027. This is a reduction of 10%

## Carbon Reduction Projects

In the future we hope to implement further measures such as:

- Salary sacrifice scheme for staff electric vehicle ownership
- Consider move to EVs for company supplied vehicles
- Presence detector use for lighting and heating
- Introduction of office recycle bins
- Switch energy supplier to renewable energy biased provider

## Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard<sup>4</sup> and uses the appropriate Government emission conversion factors for greenhouse gas company reporting<sup>5</sup>.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard<sup>6</sup>.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).
